Hissdesignprogram Elevator Car Design

Vi har tagit fram ett datorbaserat Hissdesignprogram (ECD) där Du snabbt och enkelt kan designa och beskriva hissorgar och hissorgsinredningar. Det passar till alla hissfabrikat och hisstyper, och fungerar på både PC- och Macintosh-datorer. Ladda ner ECD på www.ahmans.se

We have developed an Elevator Car Design (ECD) software tool in English which enables you to quickly and easily design and describe both elevator cars and elevator interiors. Our ECD software can be used, in both PC and Mac systems, for all makes and models of elevators. Download from www.ahmans.se.

Hissdörrar

Många äldre hissar saknar fortfarande dörrar i hissorggen vilket ökar risken för tillbud och olyckor. Man får en säkrare och snyggare hiss genom att installera hissdörrar i den befintliga hissorggen. Samtidigt kan man renovera övriga hissorggen

Ombyggnadssats för korgdörr. 8-12-4421

Tillbehör

Det är detaljerna som gör helheten. På vår hemsida hittar du hundratals tillbehör som gör hissarna snyggare och mer funktionella. Här hittar du också många referensobjekt som ger exempel på hur tillbehören tar sig ut i verkligheten. Passar till nya och befintliga hissar.
